

Trustees of the East Side Levee and Sanitary District set aside their political differences Friday afternoon to call a meeting and a quorum for a business meeting in which they approved the board's annual budget, set the rates and salaries of the board's employees and trustees and also averted a complete shutdown of levee district operations.

The action came only five hours before 129 levee district employees were to be dismissed for failure to appear for work.

The action was called by Morris Campbell, board chairman.

The dismissals and a shutdown of virtually all district activities were scheduled because there were no funds to meet payroll and three attempts to raise the money had failed.

Board members clashed verbally several times in Friday's meeting. Campbell, an East Side Lawrence Tolar, an East Side Lewis member of the board, and James O. Lewis, also of East Side, Lewis, has been opposing efforts by Williams, a West Side trustee, to force the board to call the police and Campbell to elect Ebersold as board president for the next year.

The two-to-two split on the board has prevented reorganization and election of a president thus far, although statutes require such action.

At the board's first regular meeting of the year, the meeting was called by Campbell.

This year was scheduled for Jan. 8, Tolar is demanding that Duff be elected board chairman for the current year.

Levee Reorganization

Because of the financial crisis confronting the district—there are no funds to pay the salaries of Jan. 1—all four trustees agreed at the beginning of Friday's meeting to delay the reorganization issue.

Tolar moved that all current officers of the district "carry over" until the next action is taken.

His motion stipulated that reorganization be accomplished by the end of the year.

Ebersold, Duff and Campbell voted in favor of the delay to clear the way for action on the reorganization of the district.

Scott Base Supporting Jan. 31 Moon Mission

Men and aircraft of the Military Airlift Command (MAC) which is headquartered at Scott Air Force Base, won't be taking the Apollo 14 astronauts to the moon, but they will be performing a variety of significant roles in support of the lunar mission scheduled for launch Jan. 31.

From launch to recovery and return to the United States, the world-wide command will provide airlift, rescue, weather, geodetic and medical support for the mission.

Even before the countdown begins, important data is provided by two MAC units: the Aerospace Cartographic and Geodetic Service (ACGS) and the Air Weather Service (AWS). An ACGS unit surveys the launch path, radar and telemetry stations along the Eastern Test Range to prevent errors that might send the space vehicle off course.

Weather Data
Along the same Eastern Test Range will be an extensive meteorological network providing conventional weather support. The network will provide 17 critical soundings of the upper atmosphere during the last two days of the launch countdown.

Beginning three days before splashdown, vital weather reconnaissance of the recovery zone will be made, using WC-135 weather aircraft.

Helicopters and conventional aircraft of the Aerospace Rescue and Recovery Service (ARRS) will cover the launch site, while further downrange other ARRS forces stand ready for the spacecraft landing in either planned or unplanned areas.

Additional forces will be ready in case the return vehicle overshoots or undershoots the planned splashdown area, just as they have on every manned Apollo mission.

Selected doctors and medical technicians provided by the MAC Command Surgeon will be positioned with surgical teams at the launch site and in recovery areas.

Airlift and support missions will be flown by aircraft of both the 21st Air Force, with headquarters at McGuire AFB, N.J., and the 22nd Air Force headquartered at Travis AFB, Calif.

Starlifters, Cargomaster
Five C-141 Starlifters and one C-130 Cargomaster will be operated by the 22nd Air Force in direct support of the redeployment of the astronauts, quarantine to the United States, and space module from the recovery area back to the U.S. after the return to earth.

Apollo 14 Astronauts Alan B. Shepard, Stuart A. Rosa and Edgar D. Mitchell will be transported in their mobile quarantine facility to Ellington AFB, near Houston, Tex., by a C-141 Starlifter of the 60th Military Airlift Wing from Travis AFB, Calif.

A C-130 Cargomaster of the 60th Wing will return the command module and deactivation team.

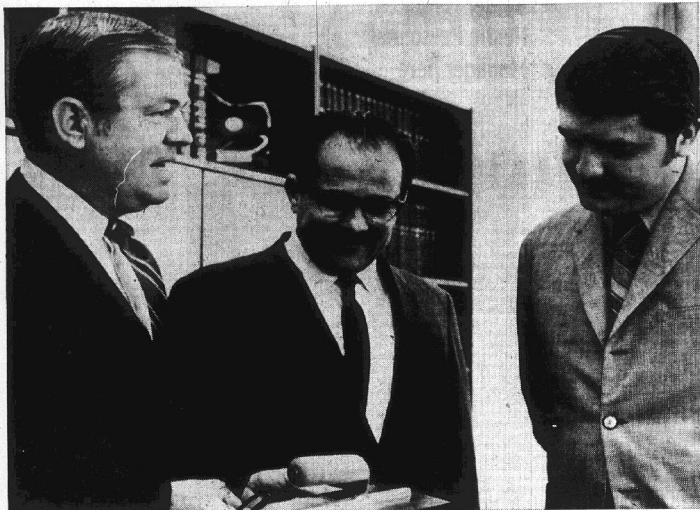

Four C-141s of the 21st Air Force will accompany the EC-135 aircraft that provide worldwide voice relay and telemetry data during portions of the lunar flight not covered by ground station communication.

Both 21st and 22nd AF will maintain an aircraft and crew on immediate availability to cover any contingency during the entire portion of the Apollo 14 mission.

43% Tuition Boost to \$143 Approved by SIU Trustees

The Southern Illinois University Board of Trustees reluctantly approved a 43% increase in tuition for the southwestern and Carbondale campuses at a meeting Friday at the Sunset Hill Holiday Inn.

For Illinois students, the basic tuition will be raised from the current \$117 per quarter to \$143 for 11 or more credit hours. For out-of-state students, they will raise to \$428 per quarter. The hikes will take effect next fall.

With fewer credits, the tuition for state students will be \$48

for five hours and \$95 for six to ten hours, and for out-of-state students it will be \$143 for five hours and \$286 for six to ten hours.

The raise is the second in less than a year for the 38,000 students, including 13,700 at the southwestern campus and 24,000 at Carbondale.

The increase, recommended by the Illinois Board of Higher Education, is subject to the approval of the Illinois General Assembly.

Study Commission
Claiming that higher tuition will force middle income groups out of the field of higher education, the trustees will ask Gov. Richard Ogilvie to create a commission to study and report on the matter.

Trustee William Allen of Decatur commented that "higher education is no longer a privilege but a right... but higher tuition is reverting it to a privilege... but it is a right and should be available to all."

Chancellor John Rendleman, who said he is still opposed to

the increase, added that the university will have more money but it is earmarked for special programs approved by the Board of Higher Education.

"Growing Boy"
The chancellor compared the situation to "a growing boy. If he grows tall enough to grow out of his pants, you cut off his feet so you don't have to buy a new pair of pants."

The comments came during criticism of a \$2.6 million cut in the university's requested budget for educational purposes which Rendleman said will have a deleterious effect on the educational program. "We will have to impose a limit on enrollment," he said, and added that "I can see no expansion of any programs except in the school of dental medicine."

At Carbondale, it was stated that staff members who resign will not be replaced and the rest of the staff will be carrying a larger load.

The trustees approved an allocation of about \$45,000 from the Student Welfare and Recreational Building Trust Fund to develop two recreation areas at the Tower Lake apartments at the southwestern campus.

Happy Housing
Rendleman told the board that "we have the happiest housing experience of any college." He said that 14% of the students on campus live away from their homes, and that the original master plan called for the commuter college to have 50% of the students living on campus. He felt that it would never be more than 20%.

The board also approved \$88,500 for renovation of the first three floors of the old Broadview Hotel in East St. Louis to be used in the Experiment in Higher Education program there.

A lease for the building has been negotiated at the rate of \$50,000 a year, to be applicable to a purchase option at a total of \$750,000.

Doubt Approval
Members of the board, including Harold Fischer of Gran-

ite City, doubted that use of the building would be approved by the Higher Board of Education and ordered that no further commitment be made on renovations or rent after this year unless authorization is received from the Higher Board.

A recommended contract award of \$11,691,450 for a humanities-social sciences building on the Carbondale campus was approved. The 400 lower level was J. L. Simmons Co. Inc. of Decatur. The S. M. Wilson Co. of Granite City bid \$12,950,000, the high bid.

The trustees also will ask the Higher Board for authority to change a six-year "certificate of specialist" program to a degree award.

The program, extending two years beyond the master's degree level, now offers the specialist certificate to education students who complete professional studies in areas as counseling, school administration and supervision. The trustees said the academic standards in the program are as rigorous as those for doctorate courses.

The East Bank Players will hold their second annual membership meeting at 7:30 p.m. Thursday, in the ballroom at the Granite City Elks Club.

Announcement of the spring musical production and tryout dates will be made at the meeting, which marks the start of the second season for the local theatre group.

The organization, incorporated in the state of Illinois as a non-profit corporation for the purpose of presenting theatrical presentations, is made up of Quad-Cityans interested in community theatre.

Operating Engineers Again Reject UE Pact

In overwhelming numbers, members of the Operating Engineers Union yesterday rejected a proposed settlement to a 59-day strike against the Union Electric Co. spokesman for Local 148 said last night.

The proposal, voted on by secret ballot at the Operating Engineers Local 520 hall in Mitchell and Iowa, essentially was the same as one rejected by the Local 148 membership earlier, the union spokesman said.

About 4,300 persons have been out of work since Nov. 20 when the dispute began at the utility's Portage des Sioux plant, Mo. Close to 1,300 of those listed are members of the Operating Engineers with the other affected workmen mostly from the International Brotherhood of Electrical Workers Local 1439 and 1455.

Principal stumbling block in settling the strike is the company's position in disciplining three employees at the Cahokia plant. Union Electric claims the men attempted to shut down the plant the day of the strike. The union claims the employees were ordered to reduce power by supervisors.

Company and union negotiators met for 10 hours Saturday leading to the Sunday vote. A majority of Local 148 members cast ballots at the Mitchell auditorium.

GC Kickers End Season With 1-1 Tie

The Warriors soccer squad finished their season with a 1-1 tie against Northwest High School Thursday afternoon, giving them a season record of 12-1-4.

"We were hoping to line up a few more games this year," Coach Tom Wyrostek said, "but no team wants to play an independent team with our record."

Granite City's sole score came in the first half when Jimmy Forrester used what Wyrostek described as "some pretty footwork" in gaining the goal unassisted.

Granite held the commanding position until the last five minutes when Northwest completed a rush to the goal to tie the score.

Essington, Summers Dazzle UMSL 97-78

A large and noisy crowd watched in utter amazement as Southern Illinois University-Southwestern's basketball team zoomed out to an 18-point lead in the first half and then closed out with a 97-78 victory over the University of Missouri — St. Louis Rivermen at the Edwardsville High School Gym Saturday night.

It was the first victory for the Cougars of Coach Jim Dudley over UMSL in a little over 3½ years and seven games. SIU-SW is now 11-2 for the season, while UMSL dropped to 8-8.

Ironically, and somewhat poetically it was two seniors, Rich Essington and John "Champ" Summers, who were the chief architects of the Cougars' impressive . . . and convincing . . . victory over Coach Chuck Smith's Rivermen. Essington, who played his prep ball at Venice High, topped all scorers with 32 points.

Summers, who starred for Madison High, poured in 25 points to trail Essington and most of them came on hard-driving blitzes under the basket as the Rivermen defense attempted to stop Essington and Denny Thorneburg from outside.

Seven Straight Points
In fact, it was seven straight points by Summers which broke Missouri's heart when the Rivermen drew within nine points (88-71) with a little less than eight minutes remaining in the game.

The SIU-SW victory had to be more satisfying for Essington, however, as he was a member of the Cougars' ranks which had been practically demolished by the Rivermen these past 3½ seasons. The little guard was all smiles and basking in the victory sign after the game.

Two Rivermen shooters carried the main scoring load for the losers: Jim Buford made 27 and Mark Bernsen racked up 20. It was Buford's 33 points which sparked UMSL's season-opening victory over the Cougars, 97-75, at the St. Louis Arena Dec. 1. In the score can be seen the scope of the Cougars' improvement. Since that time Coach Dudley's charges have won 10 of 11 games with

the only loss to the University of Wisconsin at Milwaukee there, 104-96. The Cougars will get a chance to avenge that loss Feb. 25.

Bloemer Sprains Ankle
The loss of Jerry Bloemer with a sprained ankle at the time the Cougars had built their 18-point lead probably prevented the SIU-SW attack from completely crushing the Rivermen.

The rugged, 6-4 Bloemer had contributed 10 timely points before he had to leave the game. His loss somewhat evened things up for UMSL, which was playing without Ron Carikham who has a leg injury.

Coach Smith's charges did manage to stop the Cougars' leading scorer, sophomore Denny Thorneburg, who was held to 10 points, just 10 below his 12-point average. Essington's 32 points gives him the SIU-SW scoring leadership. And Summers, who led all Cougars scorers last season with a 22-point game average, is moving up fast in the point-making parade.

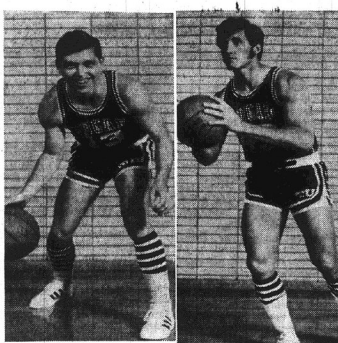

He appears to be completely recovered from knee surgery at the end of the 1969-70 season. His 10 rebounding against UMSL moved him to within five of Bloemer, 90-85, for the season.

Rebounding honors for the game, however, went to the Rivermen's Francis Goellner, who grabbed off 18. Gene Boudie, the Cougars' Mr. Slats, 6-8, had 10 rebounds.

Fly to Nashville
This week, SIU-SW faces probably the stiffest test of the current season when it flies to Nashville to take on fourth-ranked Tennessee State University Wednesday night. Tennessee State, which finished second to Philadelphia Textile in the NCAA college division tournament last year, has all five of its starters back and 11 lettermen on the squad.

Said a real proud Dudley after SIU-SW's victory over UMSL: "If we can play a game in Nashville . . . not be disgraced . . . then our post-season hopes will certainly brighten." Asked if he was conceding a victory at Nashville, the young (34) coach snapped: "Never, but I am realistic. They've got a great team . . . or they would not be ranked fifth in the nation now . . . but on any given night and on a team like ours which can score a lot of points . . . anything can happen."

Dudley was right: the Cougars have averaged 104 points their last five games.

Venice Takes Second Tourney This Season; 64-63 Overtime Win

The Venice Red Devils, now 11-3, won their second high school basketball tournament of the 1970-71 season Saturday when they beat Nashville 64-63 in overtime at the Dupu tournament. They also won the Freeburg holiday tourney.

Doug Johnson was high point man for the Red Devils with 20. Nashville Center Forys scored 28.

Algie Smith, Venice center, fouled out in the fourth quarter and 60-60 at the end of regulation.

Tied in Final Seconds
Venice led throughout the game but the advantage narrowed to one point and Nashville tied it on a free throw with 10 seconds left. A final goal attempt by Venice missed.

Nashville took the lead in the overtime period but Venice rallied for a 64-61 edge, which was reduced to 64-63 by an enemy field goal.

The scorer missed a free throw and the Red Devils got the rebound and stalled. A Venice foul shot with eight seconds left failed.

In games Friday, host Dupu captured third place by stopping Lovejoy of Brooklyn 68-51 and St. Henry's of Belleville beat Freeburg 68-66 in overtime for the consolation title.

Semifinal play Thursday saw Venice topple Lovejoy 88-66 and Nashville oust Dupu 67-49. In games Jan. 12, Lovejoy topped Freeburg 57-49 and Dupu stopped St. Henry's 54-48.

Venice led Lovejoy 24-15, 44-31 and 64-44 at the quarters.

31 for Gardner
Gardner tallied 31 points, Ohendorf 18, Johnson 15, Mosby 14, Smith eight and Malcolm Bradley, two.

Coach William Ohendorf, pleased with the new tournament triumph, praised his team's performance, noting that the game with Lovejoy was the Devils' first outing in 14 days.

Venice was a bit sluggish but poured in 13 field goals in 16 third-quarter attempts.

On Tuesday, the Red Devils will travel to St. Louis to play Roosevelt. The junior varsity game will begin at 8:30 p.m. and the varsity at 8:15 p.m.

GC Grapplers Finish On Road on High Note

The varsity matmen of Granite City High School have completed a hectic and rather successful weekend on the road as they defeated Belleville-East 25-15 Friday night and placed second in the Hazelwood quadrangular meet, Saturday evening just behind the winner, McCluer.

Friday's meet was touch-and-go into the heavyweight match, but a pin by Mark Mizerski gave the Warriors the victory. Granite City won the first six matches, then dropped the next five to Belleville-East opponents. If Belleville had been able to pin Mizerski the meet would have ended in a tie.

The Warriors kept pace with McCluer Saturday, but stayed one pin away from victory. The final score was McCluer 48, Granite City 44. They were trailed by Hazelwood with 40 points and Normandy with 18.

Coach Bill "Red" Schmitt credited the loss to some of the wrestlers trying too hard for pins, "because we needed them," he said. He said that one of the closest matches, one that would have given Granite City the meet, was Tom Eaton's in which he put his 135-pound McCluer opponent in predicaments three times, but failed to pin him and lost the match 9-6.

Warrior champions, in that order, were 98-pounder Gary Loy, and 105 and 112-pound brothers Bruce and Harry Miller.

Individual results in the three matches this weekend were: Gary Loy (98) W 7-1, W 3-2, W 8-2.

Bruce Miller (105) W 11-2, W 9-0, W 3-0.
Harry Miller (112) W 10-2, W 5-1, W 5-4.
Mike Garland (119) W 3-0, L 4-0, W 19-0.
Doug Wilson (126) W 5-0, L 4-1, W 14-2.
Tom Eaton (132) W 5-46, W 5-0, L 8-6.
Rich Sasaki (138) L 6-1, L 6-5, W 13-4.
Charlie Mayfield (145) L 4-3, L 7-0, L 8-7.
Rick Wickham (150) L 2-0, L 5-3, L 8-7.
Mike Wilson (167) L 9-2, L 4-2, W 4-3.
Tom Kalert (185) L 3-1, W 3-1, L 6-0.
Mark Mizerski (heavyweight) W 9-6, L 5-2, W 2-35.

Pins for the junior varsity squad Friday were by Kerry Johnson (115) and Scott Mangum (119). Decision winners for the Warriors were Tom Huff (165), Dennis Reagan (126), Curt Howland (132) and Craig Stephens (heavyweight).

LET US NOT FORGET.

Today, more than 450 Americans are being held prisoners by Communist forces in Southeast Asia. Do you really care what happens to them?

These Americans are being held without proper food, medical care or regard for established conventions for war prisoners.

The Communists refuse to identify all those held prisoner . . . or those known dead. There is proof of cruel physical and psychological treatment . . . Americans paraded through the streets for public harassment and abuse . . . prisoners isolated for extended periods.

The Geneva Prisoner of War Convention...agreed to by more than 120 nations including North Vietnam... provides for humane treatment of prisoners taken during armed conflict. Convention tenets are complied with by the US and its allies. We must demand, in the name of humanity, that Communist forces also comply.

There is evidence that Hanoi and its allies will respond to public opinion . . . but they cannot hear the silent majority. We must speak out. You can do so by addressing your appeal to the president of North Vietnam.

You can show your concern for these prisoners by helping them now.

For your convenience in joining in this effort we have secured a limited supply of Postal Cards to be used for this purpose.

We urge that you come in at your earliest convenience, pick up your card and mail as soon as possible.

MERCHANDISE BY MAIL

Never receiving merchandise or receiving it months later are common complaints voiced by mail order customers. Sometimes the companies are at fault. For example, they lose orders, confuse them, or run out of a product and fail to notify you.

Some "catalog companies" don't maintain a supply of the products they sell. Instead, they act as clearing houses and forward your order to the actual manufacturer.

But perhaps you're at fault. Companies receive hundreds of orders with no return addresses, no payment for the merchandise or no order blank enclosed. Customers often send checks that are made out incorrectly for the wrong amount, illegible order blanks, orders for unavailable items or incorrect catalog numbers.

Before you send an order check for these points:

A legible and easily understood order blank. Correct information. Information concerning size and color.

Accurately figured costs and postage rates.

Inclusion of your return address on the order blank and the envelope.

Farm Column

By WARREN W. BUNDY

Extension Adviser

Wheat averaged 38 bushels per acre in Madison county in 1970, according to the Illinois Cooperative Crop Reporting Service. That is two bushels above the 1969 yield but four bushels under the record high yield of 42 bushels per acre in 1966.

Statewide, wheat averaged 36 bushels per acre in 1970, down one bushel from 1969, 26 bushels per acre in 1966.

Oats averaged 49 bushels per acre in Madison county in 1970, up five bushels per acre from 1969. Oats have become a minor crop here.

Corn and soybean harvest in Madison county is nearly complete. Official yield estimates for those two crops are not yet available.

Soybean variety test plots at the Homer Bruns farm in Nameoki township were harvested December 2. The plots were planted June 11. Late maturing varieties yielded more than early maturing varieties.

Of the nine varieties in the plots, Clark 63 yielded the highest at 87.7 bushels per acre and moisture content of 12.5 percent. Yield and moisture of other varieties were Cutler and Clark 63, 80.6 bushels and 12.7 percent moisture; Cutler, 80.4 bushels and 13.0 percent moisture; Calland, 49.7 bushels and 13.4 percent moisture; Wayne, 46.1 bushels and 12.7 percent moisture; Amoy, 37.4 bushels and 13.0 percent moisture; Beeson, 34.9 bushels and 13.0 percent moisture; Corsey, 31.9 bushels and 12.7 percent moisture; and Provar, 30.6 bushels and 13.0 percent moisture.

Beeson was the only variety in which shattering occurred. Purple stain severe.

Purple stain was severe in Corsey, Provar and Amoy and moderate in Wayne. It was not present in any of the other varieties.

Purple stain is a fungus disease that turns the skin of the beans a dark purple color. A few farmers in Madison county had problems with that disease in their soybeans this year. Some elevators discounted the price of beans with purple stain, and others figured such beans on a dockage basis.

Official rules in Illinois state that beans with purple stain disease may not grade higher than number 3. Foreign buyers discount the price of such beans, but whether purple stain affects the quality of oil and meal is debatable.

Soybean varieties vary in their resistance to purple stain disease. It has not been common enough in past years to cause farmers to base the selection of soybean varieties on resistance to the disease. Experience at the Bruns farm this year shows Clark 63, Cutler, Calland, and Beeson are resistant to purple stain.

New Benefits Offered Re-Enlistees in Army

Men—and women—who previously served in the U. S. Army may find new benefits and opportunities which they may not have appreciated during their previous tours, Sgt. Morris L. Cook, Army recruiter at 1206 Niedringhaus Ave., pointed out today.

A concerted effort is underway to bring the skills and experience of these former servicemen and women back into the Regular Army, Cook said. Many of these men and women, after a few months or even years of employment in private industry, will realize anew the advantages of an Army career.

Army veterans who were discharged in grades E-6 or below now have up to 30 months to re-enlist, yet hold their previous grade. Many had spent long months to attain their sergeants' or specialists' status. If they re-enlist within 30 months after discharge, they retain their previous grades. Veterans who have been out of service for more than 30 months must apply for a promotion from Army personnel officials to find the grade in which they may be re-enlisted.

Those who left the Army in grades E-7, E-8 or E-9 still have only 24 hours to re-enlist. Those noncommissioned officers who remain civilians for more than a day must face a drop in grade, Sgt. Cook continued.

Veterans who have been out of service for a period of time have discovered that Army benefits such as free medical and dental care, 30 days paid vacation, housing and food allowances and opportunities for travel are not lost during civilian life. Many, too, are lonely without their former friends and associates.

Sgt. Cook said his office can provide still more information for ex-soldiers who wish to return to the Army or for whom an application for a grade determination may be reached by telephone at 876-9990.

December Births Rise, Deaths, Marriages Drop

The number of births in Madison county during December increased substantially over that of the same month a year ago, but deaths and marriages declined slightly, according to a vital statistics report issued by the Missouri Health Dept., county clerk.

The county clerk's office said a total of 382 births was recorded in December—203 boys and 179 girls—compared with a total of 339 births in December 1969, including 171 boys and 168 girls. Six sets of twins were included in births reported during December, compared with four sets in December a year ago.

Deaths last month totaled 160, down from 172 in December, 1969, while a total of 225 marriages were performed, 27 less in the same month of the previous year.

Family Searches for Missing Pet Puppy

A search for a small, brown puppy, the pet of the three children of Sgt. and Mrs. William Maasch of the Army Depot, was underway during the week-end after an employee at the Maasch family animal shelter gave away the dog without an hour after it had been picked up.

Sgt. Maasch appealed to Mayor Donald Partney Friday afternoon for aid in finding the dog, but the mayor said animal shelter workers said they did not record the name of a woman to whom the puppy had been given. Later the dog pound notified Mrs. Maasch that it was given a new puppy in exchange to the woman who has the Maasch dog if she can be located.

Mrs. Maasch said the puppy got free from her husband and ran off Wednesday afternoon. She was bringing it home from a trip to the veterinarian. An hour later Sgt. and Mrs. Maasch checked the animal shelter to learn the puppy had been picked up and already had been given to a woman, identity unknown, who had seen the dog and wanted to give it a home.

The Maasch family requested the woman who was given the dog call the animal shelter or the Maasch residence at the depot at 452-7300, extension 473.

Conservation Service To Provide Statements

Lee Rogers, executive director, Madison County Agriculture Stabilization and Conservation Service Office, said farmers will receive payment statements advising them of the amount of direct payments made to their accounts, under Farm Programs administered by the ASCS office.

The Agricultural Stabilization and Conservation Service follows the practice of sending each producer a statement at the end of the year, Rogers said. These reports will be prepared by the Data Processing Center, and mailed direct to the farmer, showing total payments reported to IRS.

Any payments made after Dec. 18 may not be recorded by the Processing Center in time to be included in the year-end report. In these cases, Rogers said, the county office will prepare a supplemental report and provide it for the farmer.

The amount of payments included on the supplemental report will be in addition to any reported previously reported to the Farmer on the original report. This is another service performed by the ASCS office to assist farmers in preparing their IRS tax statements.

A. O. Smith Dividend
The board of directors of A. O. Smith Corporation last week declared a regular quarterly dividend of 35¢ per share of common stock, payable Feb. 15, 1971, to shareholders of record January 29, 1971.

1,303 New Firms Licensed Last Month

Secretary of State John W. Lewis announced today that 1,303 new Illinois and out-of-State corporations were formed or licensed in December, an increase of 90 over the 1,213 new corporations in December of 1969.

During the past year 13,210 new Illinois and foreign corporations were licensed and formed in Illinois, a decrease of 822 from the 13,942 in 1969. The 1970 total, however, is 383 more than the 12,617 new corporations in 1968.

The Secretary of State's Corporation Division collected \$449,750 in fees and taxes in December, a decrease of \$228,807 from the \$678,558 collected in December of 1969.

The Corporation Division collected \$22,634,277 in 1970, a decrease of \$5,192,526 from the \$27,826,803 collected in 1969. Secretary Lewis explained that the decrease is a result of a decrease in the minimum franchise tax from \$100 to \$25.

Lewis also reported that pre-printed annual report blanks are now being forwarded to 78,276 Illinois business corporations. The decrease is a result of the 127,466 corporations and returned to the Secretary of State's Office with statutory filing fees no later than Feb. 28.

Students Still Exempt As Tax Dependents

Although the 1969 Tax Reform Act changed the filing requirements for students, as well as all other taxpayers, it did not change the special dual status of students as taxpayers and as dependents.

This year anyone whose income is \$1,700 or more, who is single and under 65, will have to file a tax return, and this would include most students. A person will start paying tax at \$1725. Last year, a person under 65 had to file a return if he had gross income of \$800, and was taxed beginning at \$200.

Many students, because they work only part-time and earn under \$1,700, will therefore not have to file a tax return this year. However, if any Federal income tax was withheld from the wages earned during the year, the person will want to file in order to get a refund of taxes withheld.

As an example, if you are a student, 20 years old and worked part-time during the year, earning \$2,300, you are required by law to file a tax return. On the other hand, if you earned say only \$1,500, you are not required to file a return. You should file, however, if you had any income tax withheld from your earnings, in order to get your refund.

Under certain conditions, the student can also be claimed as a dependent by his parents on their Federal tax return. Any person can be claimed as a dependent on the tax return of another if the five dependency tests are met. In the case of a student, only four of the tests apply: the support test, the citizenship test, the member of the household or relationship test, and the joint return test. The fifth test, the gross income test, which states that you cannot claim another person as your dependent if that person had gross income of \$825 or more, does not apply in the case of a student or a child under 19 years old. To qualify as a student, a person must be a full-time student at an educational institution during some part of each of five calendar months of the year.

Applying this to an example, suppose that your son, a full-time student, worked part-time during the year and earned \$1600. This year, he will have to file a tax return to get a refund of the tax that was withheld from his earnings. Even though he earned over \$825, he can still be claimed as a dependent on your tax return if the other four tests of dependency are met. The most important point to remember and to consider here is that you must have provided more than

No Mystery, Briggs Says Of Returned Office Items

Several items of office equipment taken in a burglary at the Nameoki township offices on Highway 162 last June were replaced in the township office a week ago by Supervisor Harry Briggs who said the articles had been recovered by the Madison county sheriff's office during a theft investigation in recent weeks.

Briggs said Friday there is "no mystery" about the reappearance of the stolen items which included a photo-copy machine, a mimeograph machine and two adding machines.

Reappearance of the articles was announced last Monday night at a meeting of the Nameoki town board by Louis Whitsell, town clerk, who said he found the returned articles in the office Friday night, Dec. 8, and did not know how they got there. Whitsell said he had talked with several town officials who also were unaware as to when and how the stolen articles had been returned.

"There is no mystery about it at all," Briggs said. "I had been in contact with the sheriff's office which told me it had

CHECKBOOK SAFETY

Checkbooks are more convenient and often safer to carry with you than cash. However, checkbooks users lose thousands of dollars each year because forgers find checks as easy to use as you do. Careful use of your checkbook will help guard against forgeries on your account. Here are some suggestions you might like to follow:

— Write clearly and always use a pen. Pencil makes erasures and changes too easy to forgers.

— On the line for "Pay to the Order Of," use all the space given to write in the name of the individual or company, or draw a line to fill left-over space. Don't leave space between words or initials.

— Place the figure for the amount of the check close to the printed dollar sign. Write numbers close together so that no other numbers can be inserted, and carefully position the decimal point.

— Begin at the far left when writing out the amounts to be paid in words. Draw a line to fill in the space between the written-out amount and the printed word "dollars." Be sure the amount given in figures matches the amount spelled out.

In addition, make checks payable to "cash" only when writing checks for cash at the bank. Never sign checks and allow them to remain in your checkbook. Cover the balance stub when writing a check in public. And cover the signature with a blank piece of paper when mailing checks or fold the check to cover the signature portion.

As a final precaution, select one signature to use on checks, record it with your bank, and use that signature consistently with no revisions.

BWARE OF HOME IMPROVEMENT SWINDLES

Watch out for fast-talking home improvement tricksters. Some of the most common swindles to watch out for include:

— You've won a prize! Some salesmen use this gimmick to get a foot in the door, and then try to sell you the latest improvements in siding, storm windows or burglar alarms.

— The fake bargain. The salesman offers you a "whole-sale price" for a home item because you've been chosen as a "model" for your neighborhood.

The phony emergency. Fake inspectors discover nonexistent, dangerous leaks in the water heater, pipes or furnace in your home. Next they attempt to sell you new equipment at inflated prices.

— Bait and switch. Advertisements quote extremely low prices, and when you respond you're discouraged from buying the item only to be encouraged to buy a better product at a higher price.

If you're approached by a salesman using such techniques, investigate the reliability of his company with your local Chamber of Commerce or the Better Business Bureau. Better Business Bureaus are located in Chicago and St. Louis.

CHECK ON CHARITIES

Each year Americans contribute 100 million dollars to charity. But Illinois residents are protected from fraudulent solicitation by the Charitable Solicitations Law. Illinois Attorney General William J. Scott instituted what is known as the "charity hot line." Charities are required to register with the attorney general's office before the group solicits public contributions. They must also file complete annual reports on their activities, income, expenditures and charitable output.

A person approached by a group soliciting funds can call the county state's attorney. The state's attorney can in turn call the attorney general's office. It will look up the registration files and provide the needed information.

FACTS ABOUT THE COMMON COLD

Many popular beliefs, which are not supported by facts, surround the common cold. Lawrence O'Reilly, University of Illinois Extension health education specialist, offers some facts which you might find helpful the next time you have a cold:

Penicillin and other so-called "wonder drugs" do not appear to be effective against the common cold viruses. These drugs should be used under strict medical supervision for the control of complicating bacterial infections and other conditions.

Laxatives do not cure colds and should not be taken without a doctor's specific instruction. Common cold vaccines are not universally effective in preventing colds, but some physicians explore their usefulness with people who experience frequent or severe colds.

Cold tablets or antihistamines that may be purchased over-the-counter neither prevent nor cure the common cold.

Vitamin supplements, including vitamin C, do not appear to have preventive or curative powers when used for colds. The person who eats a variety of foods, abundant in the essential nutrients, does not need vitamin supplements, unless such a need has been identified by his physician.

According to the American Medical Association, most of today's doctors recommend that individual thirst dictates fluid consumption when one has a cold. There is no proof supporting the old belief that a liquid diet will flush away a cold.

Low temperatures, drafts and inclement weather do not cause colds. Such factors trigger an infection if a person's defenses are lowered by chills or dampness. Viruses cause the common cold.

Concoctions of lemon juice, hot water and alcoholic beverages may help one "enjoy his misery," but they will not cure a cold, says O'Reilly.

MORE ABOUT Board

upon a large amount of currency. I saw immediately that I was involved in a situation of extreme complexity.

"So without delay I sought the advice of a prominent and experienced banker, Mr. A. D. Van Meter, president of the Illinois National Bank of Springfield, and of a distinguished attorney, Mr. Robert Ostbo of Van Meter, Ostbo, & Funk, all of Springfield.

"It was decided, after detailed discussion and upon their advice, that the funds would be deposited and that timely regulations, would be made to appropriate federal agencies.

Cash Vaulted
"Furthermore, I directed that all items relating to the cash be carefully preserved in the vaults of the bank.

"On the occasion, I was also advised that I could not seek another executor designed. I had no alternative in this difficult position other than to fulfill my primary duty to the estate: the preservation of its assets.

"I did at that time instruct the bank to advise anyone in an official capacity, upon receipt of the fact that the deposit had been made.

"I then began an orderly, diligent, and exhaustive search to determine if other assets, particularly cash, were located in Mr. Powell's apartment in Chicago or in his home in Vienna.

I also sought to determine if there were any other properties or locations of which I was unaware where a similar situation might obtain.

"Such diligence took time. However, I was further and explicitly advised that until I had been named executor of the estate by the Probate Court of Johnson County, I could not, legally prudently, make any public statement. The court appointed me executor on Dec. 11.

Attorney General Informed
"In the meantime, on or about Nov. 6, Mr. Ostbo, with my full authorization, informed Gen. William J. Scott of the existence of the cash. The attorney general was the appropriate state official to have been made privy to this information prior to its public disclosure.

The attorney general was given the information in confidence and treated it in that manner.

The discharging of this responsibility has been a very trying experience. Ensuing public developments have added to the burden I have had to carry in fulfilling my duties to the estate. I am pleased that I am now in a position to say that I have assembled the assets of the estate.

"However, there will continue to be a multitude of problems in the continuing administration and ultimate disposition of an estate of this magnitude.

"I do not wish to dissociate myself entirely from this matter, since I would not want it to be construed that I was dissociating myself from Mr. Powell in his death in a commitment I made to him while he was alive.

Rendleman to Give Powell Records to IRS

John S. Rendleman, chairman of Southern Illinois University - Southwestern campus and executor of the estate of the late Paul Powell, was to turn over today to the Internal Revenue Service office in East St. Louis all financial records pertaining to the estate of the late Illinois secretary of state.

The IRS is trying to determine if Powell failed to pay income tax on \$538,000 dollars found by Rendleman in Powell's office, his Vienna home and a safe deposit box after the death of the former state official.

Rendleman, and five Powell assistants are expected to be questioned by federal tax agents who are trying to trace the sources of the cash found by Rendleman.

The others are Mrs. Margaret (Marge) Hendry, Powell's private secretary and personal companion; Nicholas D. Cicacio, Powell's executive assistant; his wife, Jean Cicacio; Miss Marilyn Towle of Eldorado, Powell's executive secretary, in a closet under a stairway at Powell's Vienna home during the weekend.

Funds Denied SIU to Operate Parks College

A request by Southern Illinois University for \$1,717,058 to operate Parks College of Aeronautical Technology in 1971 and 1972 has been turned down by the Illinois Board of Higher Education, thus nullifying an agreement between the SIU Board of Trustees and St. Louis University, present administrator of Parks College.

The Rev. Jerome J. Marchetti, St. Louis University executive vice president, reported Saturday to the University Council that a major factor in the Illinois board's decision was based on a \$50 million cut imposed on state universities this year.

\$1,700 and \$2,300 Minimum Income Levels for Federal Income Taxes

(Internal Revenue Service)

Q) Who must file an income tax return? A) The 1969 Tax Reform Act raised the gross income levels at which returns must be filed. Previously a return had to be filed when gross income reached \$600.

A single person must file if his income is \$1,700 or more. Married persons living in the same household and filing jointly must file if their income is \$2,300 or more.

These totals are increased by \$500 if a person is 65 or older. Other married persons generally are required to file if they have income of \$800 or more.

Taxpayers due a refund of taxes withheld must file a return to get a refund.

Q) Have you made it any easier for retired people to figure the retirement income tax credit? A) Yes, the IRS will figure the credit and the tax for them in many cases.

To qualify they must take the standard deduction and have income not over \$20,000 coming only from salaries, wages and dividends, pensions and annuities.

For those who don't meet these qualifications or who decide to figure the credit themselves, the Schedule R Form has been changed to make the computation a little easier.

Q) Does a dependent have to be someone related to you? A) No, you may claim someone who is not related to you if he or she was a member of your household and lived with you the entire year.

In addition, the other dependency tests such as support and income must be met. Check the 1040 instructions for details.

Q) How should I handle income from land I rent to a farmer? A) Unless you are materially involved in the management or farming of the land you rent, you should report income from the land as rent. Use Schedule E, Form 1040.

Q) Where can I get copies of the tax forms? A) Everyone who filed a return last year will receive a package of forms and instructions in the mail in January.

DIAL A PRAYER

797-0775

The State Loan and Savings Association, Niedringhaus and Edison Avenues, reorganizing last week for 1971, elected an additional officer and concluded that a favorable year is in prospect.

D. F. Little, who was re-elected as president, commented that "predicting what will happen to the economy is a hazardous forecast to make and often amounts to a guess. But, granting that the war will be phased out, there will be an urgent demand for housing and an increase in building."

"Locally, there should be ample funds available to finance the building or purchase of housing required," President Little said.

"Interest rates have declined and are not apt to decrease to a lower level for some time locally. We are below the metropolitan interest rate."

Officers re-elected besides the president were Dr. A. H. Rode, chairman of the board; Alfred Stoecker, vice-president; and Robert E. Backs, secretary-treasurer.

The newly-elected officer is Mrs. Roberta A. Hudson, assistant secretary.

Directors for 1971 selected at the annual meeting, unchanged from last year, are Dr. Rode, Little, Stoecker, Backs, Bernard S. Miller, Carl A. Ranft and Dr. J. C. Byers Jr.
